Professional Summary

Full Stack Developer specializing in React, TypeScript, Next.js, and Node.js with experience building scalable real-time web applications and AI-powered systems. Smart India Hackathon 2025 Finalist with strong expertise in backend systems, REST API development, WebSockets, system design fundamentals, and solving real-world engineering problems.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, FastAPI

Databases: MongoDB, Redis (Learning)

AI / ML: OpenAI APIs, NLP Concepts, PyTorch (Learning), LLM Integration

Tools & Technologies: Git, GitHub, Socket.IO, WebRTC, Google Maps API, Vercel, Render, Docker (Learning)

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Real-Time Systems, System Design Basics

Experience & Achievements

Smart India Hackathon 2025 Finalist 2025
National Level

- Built **JanSehat**, an AI-powered telemedicine platform addressing rural healthcare accessibility challenges.
- Designed low-bandwidth teleconsultation workflows with offline-first patient record access and emergency triage support.
- Contributed to a scalable healthcare solution targeting underserved communities.

IIT Bhubaneswar Hackathon Participant 2025

- Developed a full-stack E-learning platform during rapid hackathon execution.

Freelance Web Development Projects

- Built a live **cement booking platform** for business workflow digitization.
[Live Demo](#) — [GitHub](#)
- Developed a responsive **school website** improving digital accessibility.
[Live Demo](#) — [GitHub](#)

Projects

TripSync – Real-Time Collaborative Travel Platform 2025

Next.js, TypeScript, Node.js, Express.js, MongoDB, Socket.IO, Tailwind CSS

- Engineered a real-time collaborative travel planning platform enabling multi-user checklist synchronization with low-latency updates.
- Designed scalable full-stack architecture ensuring shared state consistency across concurrent users.

- Implemented invite-based collaboration workflows for seamless group trip planning.

JanSehat – AI-Powered Telemedicine Platform (SIH Finalist)

2025

React, Node.js, WebRTC, AI APIs, IndexedDB, Twilio

[Live Demo](#) — [GitHub](#)

- Developed multilingual telemedicine platform optimized for low-bandwidth rural healthcare access.
- Integrated AI-powered symptom assistance and medical summarization workflows.
- Implemented offline-first architecture for resilient healthcare record accessibility.

Uber Clone – Full Stack Ride Booking Platform

2025

React, TypeScript, Node.js, Express.js, MongoDB, Google Maps API

[GitHub](#)

- Built a ride-booking platform simulating real-world trip lifecycle management and booking workflows.
- Implemented backend APIs for authentication, trip management, and route-based interactions.
- Integrated map-based trip estimation and routing services.

Victus – Distributed AI Training Infrastructure (Ongoing)

2026

React, FastAPI, Docker, Redis, PyTorch

[GitHub](#)

- Building a distributed AI training platform enabling collaborative GPU/CPU resource sharing across peer nodes.
- Designing distributed task scheduling, fault-tolerant execution, and model checkpoint synchronization workflows.
- Focused on scalable infrastructure for decentralized model training experimentation.

AI Interview Copilot (Ongoing)

2026

Next.js, TypeScript, Node.js, OpenAI APIs, Whisper, NLP

- Building an AI-powered interview preparation assistant with resume-aware mock interviews and answer evaluation.
- Designing semantic answer scoring, skill-gap analysis, and personalized learning roadmap generation.
- Focused on practical AI product engineering for career readiness workflows.

Education

B.Tech in Computer Science

2023 – 2027

Silicon Institute of Technology, Sambalpur

CGPA: 8.8 / 10.0

Class XII (Senior Secondary)

2023

Apex Senior Secondary School, CBSE

Percentage: 68%

Class X (Secondary)

2021

Gurukul Public School, CBSE

Percentage: 76%

Achievements

- Smart India Hackathon 2025 Finalist – Built AI-powered telemedicine platform for rural healthcare.
- Developed full-stack E-learning platform during IIT Bhubaneswar Hackathon 2025.
[GitHub](#)
- Solved 60+ Data Structures & Algorithms problems on LeetCode, strengthening algorithmic thinking and problem-solving skills.
